Hello Spencer,

I just wanted to follow-up with you and thank you for a very wonderful job that you and your staff provided for our past meeting. The food was not only good, it was fresh, selections were great, and most of all was hot during the duration of the meeting.

In addition you and your staff couldn't have been more professional and friendly. I also appreciate the flexibility that you showed during the process in the changing dates. The room was warm and inviting and made for a very successful meeting on a very cold morning. We would not hesitate to use your facility again and look forward to future endeavors. Thank you.

Kindest regards,
